

Design System Support Activities for the Thai Department of Intellectual Property (DIP)

■ Design Seminar for DIP Examiners

- In February 2026, in Bangkok, Thailand, we presented and discussed case studies of Japanese design similarity examinations (overall designs and partial designs) and provided reference information regarding accession to the Hague System.

■ Exchange of Views with the DIP Director General

- Prior to the seminar, we submitted to the Director a written request regarding (1) expediting design examination, (2) introducing a partial design system, and (3) extending the term of protection, and then exchanged views.
