Diversity in Carbon Neutrality - Accelerating Decarbonization with Sustainable Fuels

JAMA COP30 pre-event

1. Technology neutrality: all technologies should be allowed

SUSTAINABLE FUELS

2. Decarbonisation scenario: why biofuels & e-fuels are key

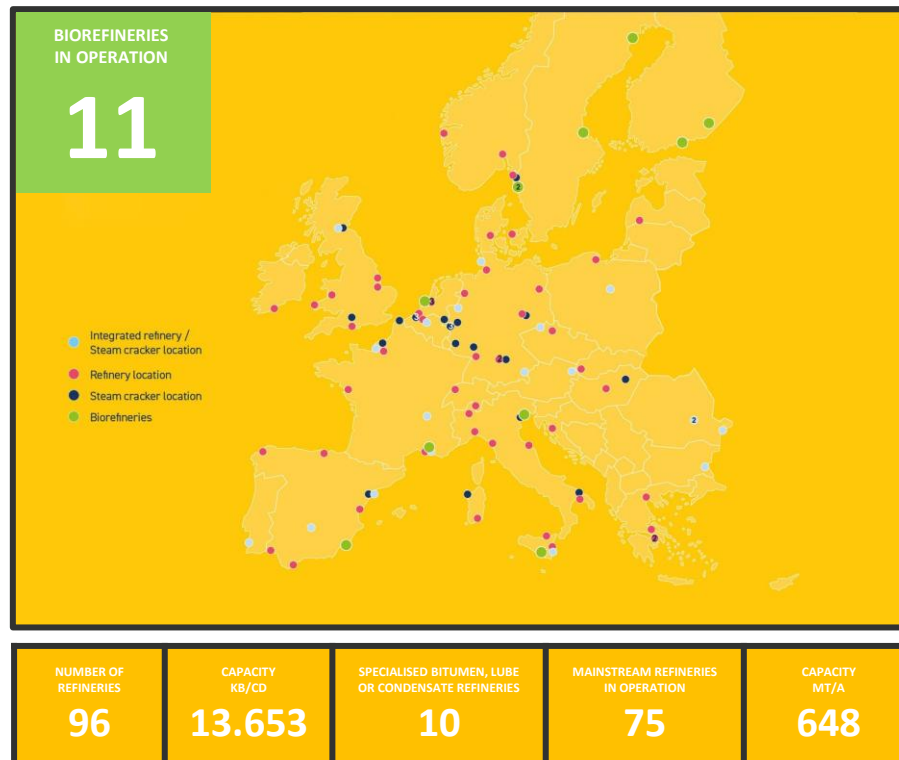

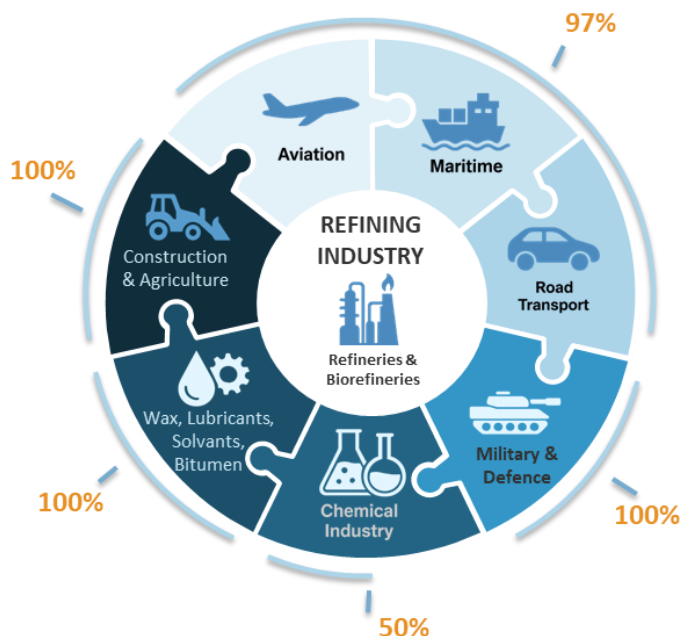

BIOFUELS & E-FUELS

Sustainability, security of supply,
strategic autonomy,
reduced dependence on imports,
economic resilience, circularity,
military preparedness,
new opportunity for local economies,
new industrial value chains,
lifecycle CO2 reductions of up to 90%.

3. Our Sector across Europe: Refineries & Bio-Refineries

Our products cover most of the needs
of strategic sectors

4. Myths that must be dispelled

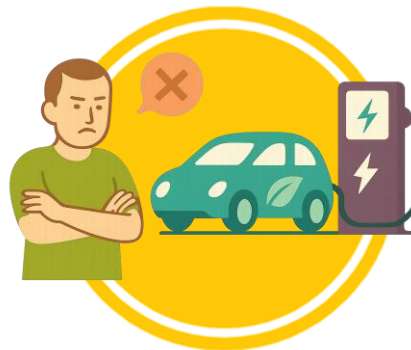

5. Market signals from the EU car industry

OBJECTIVE

NET ZERO

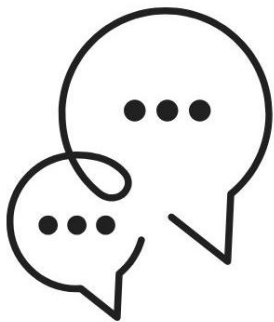

REALITY

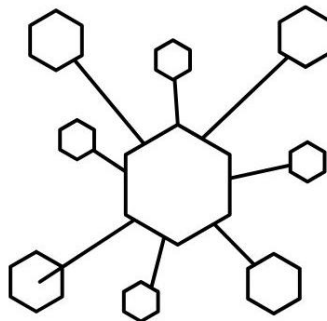

**RAW MATERIAL
DEPENDENCE**

6. Call to Action

**AMBITIOUS &
COHERENT
POLICIES**

**SUPPORT
IEA's SIX GLOBAL
POLICY
PRIORITIES**

**DEDICATED
STRATEGIC
DIALOGUE**

**EFFECTIVE TOOL,
ELECTRONS &
MOLECULES
REQUIRED**

THANK YOU FOR YOUR ATTENTION
