If you have received this notification, there is a high possibility that someone within your company has already submitted it, so please check within your company and consider whether it is necessary to submit it.

How to submit self evaluation results

Below are some FAQs.

Ans. Please select “Replace” and submit again. When resubmitting, please enter only the sharing destination you want to add in "Email address to share". If you fill in again, the same email will be sent twice to the business partner you listed when submitting as “New”.

Q2. I don't know how to use “Replace” for the items that have added in 2023. In what cases should I choose it?

Ans. You may want to select “Replace” in the following cases.

- In case you would like to replace the evaluation results as “New” because you have reviewed it.
- In case you want to share the evaluation results with other business partners, in addition to the business partners you shared already when submitted as “New”.

Q3. Due to company rules, access to Dropbox is restricted. What should I do?

Ans. If your company does not allow access to Dropbox, please send the completed checklist to the email address below. It will be uploaded on your behalf. However, it may take more than a week to receive the notification, which is expected within one week in an usual method.

Substitute upload request address : ict-cybersecurity@mta.jama.or.jp

Q4. I don't receive email notifications. What could be the cause?

Ans. The email notifications after submission will be sent from “no-reply@celf.jp” to the address you entered in “Contact person's e-mail address”. Please double check that there are no mistakes in your company's address. Also, please check whether the emails are in your spam folder, etc.
